

## Update

ISSUE ONE

FEBRUARY 2006

## A new look for SEE-iN

After a major redesign, the SEE-iN web portal is up and running again. The new structure makes the site easy to use and navigate around, whilst also attaining a AA rating for accessibility. The advanced search function will help users find what they are looking for quickly and with ease.

The re-launch of the SEE-iN web portal is the first phase in the development of SEE-iN. Over the coming months, users will notice a number of new and improved site functions as SEE-iN works to provide the region with a first class data and information portal.

The latest addition is a

browse-able version of SEEDA's regional evidence base. The pages cover all the evidence, charts and analysis that is underpinning the current consultation document on the *Regional Economic Strategy 2006-2016*.

SEE-iN is also working to address the data needs of the

region at all levels. Crucial to this continual growth and development of SEE-iN, is input and feedback from users. If you have any data, research or strategies you would like to share with others, contact SEE-iN to discuss how we can help.

There is great value in sharing what we know about the region and SEE-iN can facilitate access to a wealth of data and intelligence to aid evidence based decision making.

	Headline(1) GVA(2,3) at current basic prices			GVA per capita (3)				relative to UK (2004 GVA)

(1) The headline regional GVA series for this publication have been calculated using a five-period moving average.  
 (2) Estimates of regional GVA in this table are on a residence basis, where the income of commuters is included.  
 (3) Components may not sum to totals as a result of rounding.  
 2004 data: Provisional

New Regional GVA  
Figures Released

The Office for National Statistics has released new data on regional Gross Value Added (GVA). The South East continues to make a significant contribution to the UK GVA, accounting for 15.6% of the total. The region is also one of only four that

have seen an increase in their GVA over the last ten years. For more information see [www.statistics.gov.uk](http://www.statistics.gov.uk)
